

[Medicinski fakultet u Rijeci]

Curriculum 2023/2024

[Za kolegij]

Precancerous Breast Disease

Study programme: **Medical Studies in English (R)** (elective)
[Sveučilišni integrirani prijediplomski i diplomski studij]
Department: **[Zavod za opću patologiju i patološku anatomiju]**
Course coordinator: **izv. prof. dr. sc. Avirović Manuela, dr. med.**

Year of study: **3**
ECTS: **1.5**
Incentive ECTS: **0 (0.00%)**
Foreign language: **Possibility of teaching in a foreign language**

Course information:

MS Teams code: a6o17ql

The elective course Precancerous Breast Disease has the role of introducing students to the steps in the development of neoplastic changes in the breast, the phenotypic and genotypic similarities of precancerous lesions, the difference between risk and precursor lesions, and the histological, cytological and radiological characteristics of these lesions. They will also learn about clinical procedures for such lesions, including surgery.

List of assigned reading:

Ppt presentations and scientific papers used in seminar presentations

List of optional reading:

/

Curriculum:

Lectures list (with titles and explanation):

Precancerous breast disease

Defining risk lesions and precursor lesions. Lesions without risk, low risk and moderate risk for the development of invasive breast cancer. Morphology of risk lesions. Clinical significance of risk lesion recognition.

Preinvasive breast lesions

DCIS and LCIS. Risk of invasive cancer. Clinical significance of in situ lesions.

Precancerous Breast Disease, radiologist view

B3 lesions

Precancerous breast disease, surgeon's view

Surgical approach in breast diseases

Precancerous breast disease, a cytologist's view

Cytological analysis of breast lesions

Seminars list (with titles and explanation):

Breast cancer detection methods

Inspection and self-examination methods, medical examination, radiological imaging methods..

Breast microcalcifications

Differentiation of benign from malignant microcalcifications in the breast

Students presentations

Core needle breast biopsy; benign breast diseases; Benign breast diseases and recent alcohol consumption; hormone replacement therapy; obesity and breast cancer risk; meat consumption and breast cancer risk.

Slide seminar of breast lesions

Slide seminar of breast lesions, interactive

Final repetition and exam

The last lesson of repeating what you have learned and the exam

Student obligations:

Attendance of 70% of classes, the presentation of the seminar work and the final exam

Exam (exam taking, description of the written/oral/practical part of the exam, point distribution, grading criteria):

/

Other notes (related to the course) important for students:

/

COURSE HOURS 2023/2024

Precancerous Breast Disease

Lectures (Place and time or group)	Seminars (Place and time or group)
05.12.2023	
Precancerous breast disease: <ul style="list-style-type: none">• [P14 - PATOLOGIJA predavaonica] (17:00 - 18:15) [508]<ul style="list-style-type: none">◦ pbd
